EDUCATION AND LEARNING IMPROVEMENT PLAN – 2023-2027

Dumfries and Galloway Council is committed to developing a culture and ethos of excellence, equity and inclusion.

To this end, a local authority produced 'Framework for Inclusion' drawing on the themes from 'All Our Children, All Their Potential' (Morgan Report) was created in session 2022-2023. This now provides the strategic core and underpinning organisational framework through which National Improvement Priorities, the Scottish Attainment Challenge Priorities and the priorities of the South West Education Improvement Collaborative (SWEIC) will be incorporated and improvements planned for as described here in the Dumfries and Galloway Education Plan 2023-2027.

Framework for Inclusion is a strategic approach through which to cultivate system wide and deeply embedded inclusion of all children and young people and an organisational scaffold to foster empowerment amongst education professionals to achieve this. It is not comprised of a series of tasks and activities to be completed, but articulates a way of working, thinking and prioritising actions and resources to meet the needs of all learners.
